SASOL EARLY PAYMENT PROGRAMME

At Sasol we are proud of the relationship we have with our suppliers and we are continuously looking for ways to make it easier for our suppliers to do business with us.

For this reason, we are pleased to introduce to you the recently launched 'Sasol Early Payment Program'. Operated in partnership with Taulia - a market-leading provider of invoice, payment and financial management solutions, the Platform provides real time visibility of all approved invoices and an opportunity to access early payments at favourable terms.

This Program gives invited suppliers the ability to access working capital at favourable terms. Registration is free. There is no additional paperwork and the early payment option can be used whenever is convenient to you.

Continue reading to find out how the Program works.

THE SASOL EARLY PROGRAM

FEATURES
You are in control of when you receive your payment from Sasol:

PAYMENT ACCORDING TO STANDARD TERMS
No Early Payments:
Stay up to date by simply using the Platform to view your approved invoice payment status and be paid as per your standard payment terms on time.

CASH PLANNER
Select multiple invoices at once:
Accelerate multiple invoices at once to meet specific cash flow needs, whenever you need it. The CashPlanner™ tool assists you with determining the best way to get paid early to meet your specific cash flow objectives.

AD-HOC EARLY PAYMENT
Select individual invoices:
Choose when to accept early payment offers on individual invoices. Ad-hoc early payments allow you to get paid early on each selected invoice. This will give you the flexibility to manage occasional or seasonal cash needs.

CASHFLOW™
Accelerate all invoices:
Automatically receive early payments on all your invoices - the moment invoices are approved. CashFlow™ gives you complete control and flexibility, allowing you to activate the feature for all invoices or turn it off completely as your needs change.

BENEFITS

IMPROVE WORKING CAPITAL
You can reduce your Days Sales Outstanding (DSO) by choosing to get paid early with a click of a button. Where you were traditionally paid for example on day 30 you can now get paid as soon as Sasol has approved your early payment request.

PREDICTABLE CASHFLOW
You choose which invoices to accelerate in order to be paid on a specific day to ensure predictable cash flow.

OFF-BALANCE SHEET FINANCING
Easy and flexible, off balance sheet, non-recourse settlement of your invoices. No guarantees or collateral required against your Sasol approved invoices (receivables) to receive early payments.

FREE UP YOUR CREDIT LINE
Existing credit line with banks can be used for further business growth.

VISIBILITY & TRANSPARENCY
24/7 real-time visibility of your invoice and payment information.

FREE & EASY TO JOIN
Access is by invitation only however it is voluntary & free of charge.
• No paperwork
• No software installation needed

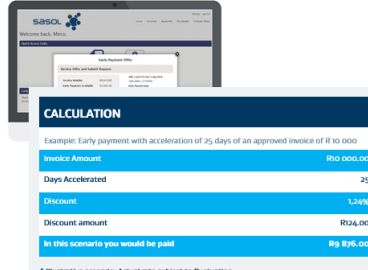

DATA SECURITY
The Sasol Early Payment Program, powered by Taulia, has been in-class controls around security and privacy. It complies with applicable U.S. South African data privacy regulations with guaranteed AES 256-bit encryption of data in transit and at rest. The platform is scanned daily in accordance with SOC2 Security Standards. You can rest assured that your data will never be shared with a third party.

HOW THE SASOL EARLY PAYMENT PROCESS WORKS

FLOW
Once your invoice is approved and ready for payment in the Sasol ERP system, its status is visible on the Taulia Platform. You can then request early payment of eligible invoices or get paid according to your standard payment terms.

EXAMPLE

CALCULATION	
Example: Early payment with acceleration of 25 days of an approved invoice of R to 000.00	
Invoice Amount	R to 000.00
Days Accelerated	25
Discount	1.74%
Discount amount	R126.00
In this scenario you would be paid	R to 874.00

* Illustrative scenario, Actual rate subject to fluctuation

SASOL SIYAKHA SOLAR ENERGY SUPPORT PROGRAMME

Powered by Sasol Enterprise and Supplier Development (ESD)

Introducing fully funded solar energy solutions for qualifying Sasol SME suppliers

The Sasol Siyakha Enterprise and Supplier Development Trust (Siyakha Trust) invites qualifying Black-owned SMEs, who are suppliers to Sasol to apply for a fully funded solar energy solution.

ARE YOU A SASOL SME SUPPLIER STRUGGLING WITH HIGH ELECTRICITY COSTS AND POWER INTERRUPTIONS?

YOUR BUSINESS MAY QUALIFY TO RECEIVE A FULLY FUNDED SOLAR ENERGY SOLUTION.

This opportunity is exclusively available to SMEs that are active Sasol suppliers. It provides solar energy solutions, extended as grants, to selected SME suppliers, reducing electricity costs and enhancing financial stability. These savings will support growth, improve productivity, and strengthen the long-term competitiveness of your business.

Benefits of this opportunity include:

- Fully funded solar energy solution to reduce dependence on the national grid.
- Lower electricity costs, improving cash flow and enabling reinvestment in business growth.
- Strengthened competitiveness and business resilience.
- Technical support and training on solar system maintenance and optimisation.

ENTERPRISE SELECTION CRITERIA
To qualify for the opportunity, entities should meet the following minimum criteria:

- Be an active Sasol supplier with a valid vendor number, active contract, or purchase order.
- Be at least 51% Black-owned.
- Have a rented (3-to-5-year term lease agreement) or owned business premises with roof surface and structural integrity suitable for a solar installation.
- Consent to a structural and energy audit.
- Have sufficient energy consumption to justify installation and resultant cost savings.
