SUMMARY

Creative, data-driven, and technically skilled marketing professional with 3+ years of experience in campaign development, data analysis, and stakeholder communications. I combine marketing strategy with technical execution to deliver measurable results. Skilled in designing compelling visuals (Adobe Creative Suite), managing and analyzing data (Python, SQL), and building insightful dashboards (Power BI) on Azure and AWS. Experienced in automating CRM workflows (Zoho, HubSpot, Salesforce) to streamline engagement. Based in Johannesburg, I bring a unique mix of creativity, analytics, and technical expertise to drive business growth.

EXPERIENCE

Communications Officer

Sasol (Internship) | 06/2024 – 05/2025

- Designed and rolled out communication plans for 50+ SMEs across the SME Solar Energy Solution Programme, and other ESD initiatives, using channels such as email updates, LinkedIn campaigns, and exhibition noticeboards.
- Partnered with ESD specialists and SME representatives to co-create storytelling content, including safety success features, spotlights, and recognition profiles celebrating SMEs achieving funding, contracts, or innovation milestones.
- Produced campaign-specific multimedia content in English and isiZulu, including videos, infographics, investor-ready pitch decks, and branded social media toolkits for SMEs.
- Led recognition initiatives such as "SME Spotlight" features in quarterly reports and Sasol's internal channels, celebrating operational excellence, innovation, and sustainability practices.
- Managed time-sensitive communication during key moments, such as programme application deadlines, funding approval announcements, and real-time updates during exhibitions and hackathons.
- Utilised my Sasol Brand Training to ensure all marketing packs, collateral and materials met Sasol's strict brand rules, guidelines and requirements.
- Tracked and reported campaign performance through Power BI dashboards, measuring event attendance, SME engagement, and campaign reach for quarterly and annual reports.
- Aligned all messaging with safety requirements for site visits, programme compliance standards, and Sasol's supplier development and transformation objectives.

Data Analyst

South 32, Hillside (Internship) | 07/2023 – 06/2024

- Converted 1,000+ paper records into structured digital datasets, ensuring compliance and audit readiness through accurate record-keeping.
- Automated data validation and reporting using Python, SQL, and Excel VBA, reducing manual work hours and improving accuracy.
- Collaborated with IT and Communications teams to improve data governance, metadata management, and reporting workflows.
- Built interactive Power BI dashboards that highlighted KPI trends, operational bottlenecks, and performance insights, enabling data-driven decisions.
- Supported teams in data entry, database updates, and documentation, ensuring smooth workflow between IT, operations, and communications.
- Applied ETL processes (extract, transform, load) to prepare and model datasets for analysis.
- Developed self-service dashboards that empowered operations, HR, and engineering teams to explore insights independently.
- Implemented data quality checks and anomaly detection scripts to enhance accuracy and reliability of business reports.
- Assisted in delivering training materials and ran workshops to upskill staff on data visualisation, BI adoption, and digital literacy.

Media, Marketing & Brand Officer

Empangeni High School (Fixed-Term Contract) | 01/2023 – 07/2023

- Managed integrated digital campaigns across Facebook & Instagram Ads, achieving measurable audience growth and increased community event attendance.
- Produced multimedia content (graphics, videos, content, live coverage) for multi-platform publishing, driving a boost in engagement.
- Secured R80,000+ in sponsorships through compelling proposals and relationship-building with local businesses.
- Implemented SEO practices and optimized school's social presence, ensuring higher visibility and digital footprint.
- Monitored performance using Google Analytics and Meta Insights, providing reports on growth.
- Designed and branded school uniforms, mascots, and collateral, reinforcing identity and community pride.
- Developed email marketing newsletters and engagement campaigns that improved parent-school communications.
- Organised school events and parent, teacher engagement sessions, managing ticketing, logistics, and communications to ensure smooth participation.
- Built feedback mechanisms for parents, including surveys and polls, to incorporate their input into school initiatives and event planning.
- Designed posters that informed and connected parents with school updates.

Sales Consultant

CCI Global (Contract) | 03/2019 – 01/2021

- Handled high-volume inbound and outbound sales calls for major telecoms and insurance clients (Vodacom, MTN, and Sanlam campaigns), converting leads into paying customers through need-based selling.
- Used tailored sales scripts and objection-handling techniques to promote airtime packages, mobile contracts, and financial products, matching offers to customer needs.
- Consistently met and exceeded daily and weekly KPIs including conversion rates (20%+), average talk time, QA scores (90%+), and upsell success, securing both new sales and add-on products.
- Built and maintained a personal pipeline of high-value prospects, closing repeat business and driving a consistent 15–20% uplift in monthly revenue.
- Resolved client queries and escalations on-the-spot, ensuring positive customer experience and high retention.
